KEY FIGURES

20+ years in IT

4 team members led

50 virtualised servers

150 workstations, two sites

CORE EXPERTISE

IT leadership · Budgeting · Project management · VMware · Windows Server · Linux · Networking & security · GxP validation · C# / .NET · Generative AI

STRENGTHS

Rigour
Qualified systems and validated data flows, to the demanding standards of clinical research.

Determination
Projects delivered end to end, from infrastructure to development.

Leadership
Team leadership, budget ownership and liaison with the group.

Rémi Giacometti

IT Manager

Infrastructure · Management · Business applications & AI

PROFILE

IT Manager at Eurofins Optimed, a clinical research company, where I progressed from systems and network administrator to head of the IT department. I lead a team of four and work in constant collaboration with the IT teams of the Eurofins group.

Alongside this role, I founded an IT consultancy for small and medium-sized businesses, which broadened my skills into software development and, more recently, into designing AI-assisted business applications. Rigour and determination are my main strengths.

EXPERIENCE

IT Manager — 2015 — present

Eurofins Optimed · Gières, France · Permanent

- Leading the IT team (4 people)
- Overseeing development and infrastructure projects
- Managing IT budgets
- Liaison with the parent company (Eurofins group)

Owner — CSI-Informatique — Dec 2013 — present

Self-employed · Grenoble, France

- Website design and hosting (WordPress, Drupal)
- IT audits and consulting for small and medium-sized businesses

Systems & Network Administrator — 2009 — 2015

Eurofins Optimed · Grenoble, France · Permanent

- Managed a fleet of 50 servers on virtualised infrastructure
- Administered network equipment (VLANs, new hardware roll-out)
- User support and management of 150 workstations across two sites
- Managed technical projects specific to clinical trials
- System qualification and data flow validation

Level 2 Support Technician — Oct — Dec 2008

Capgemini · Grenoble, France · Fixed-term

- Managed internet connectivity for remote workers
- Quality control of workstation deployment images (WIM)
- Subcontracted assignment for Schneider Electric

Network Technician — Aug 2004 — Aug 2008

BASF Orgamol · Saint-Vulbas, France · Fixed-term

- Managed Windows servers, IT equipment and user support
- Planned and managed the PC fleet renewal
- Built a redundant fibre-optic switch ring and implemented VLANs
- Helped integrate the IT system into a large corporate group (BASF)

SIGNATURE SKILL · ARTIFICIAL INTELLIGENCE

AI-powered business applications

From a team's needs to a tool in production: I design and build custom business applications using generative AI. Faster delivery, with no compromise on rigour, security or maintainability.

01	02	03	04
Understand the business and scope the need	Design and prototype with AI	Build, test, secure	Deploy and evolve

SKILLS

Systems

- Windows Server AD, DNS, DHCP, IIS, DFS, TSE, WSUS
- Debian / Ubuntu Apache, NGINX, MySQL, Samba

Networking

- Switches Cisco, HP, Fortinet
- Firewall Sophos, pfSense, StoneSoft
- Wi-Fi access points Ubiquiti, Omada

Hardware

- Servers Dell, Lenovo
- SAN NetApp, PowerStore
- Raspberry Pi
- Data Domain storage

Databases

- SQL Server
- MySQL
- SQLite
- Oracle

Programming

- C# / .NET
- Scripting PowerShell, VBS
- Python
- HTML / CSS / PHP Slim, Bootstrap
- Bash

Software

- VMware vSphere
- Veeam Backup
- Centreon & Nagios
- GLPI / FusionInventory
- Xivo IPBX
- Docker
- Nextcloud
- LimeSurvey
